Feel free to print this chart out and keep it handy.

Because every door and every project is different, this list is not to be held as a contract of performance. Ask your sales representative whether there will be any exception in your purchase.

Abby Iron Doors Vendor 1: Vendor2:

Pricing

Priced by the size not by design to avoid confusion. Custom and is stock is the same price.	✓		
Clear glass is included. One flat rate for glass upgrade.	✓		
Door hardware is priced separately so that you can use your own hardware.	✓		
Exact hiping cost is quoted up front. For Canada shipment, a Custom fee is covered.	✓		
Only 25% deposit down is required for custom order.	✓		

Door Construction

Tough construction: 12 gauge steel throughout (12 gauge steel is thicker than 14 or 16 gauge)	✓		
Authentic 5/8" thick solid iron hand crafted scroll works.	✓		
Polyurethane foam injected all around	✓		
Door and window sill sloped down to let water run out	✓		
Flush bolt installed to lock the inactive door (for double door only). The top flush bolt is extended down low enough so you can actually reach it.	✓		
Heavy duty greased door hinges with aerospace-grade ball bearing.	✓		
4 door hinges for a standard 96" tall door, 3 hinges for 80" door. More hinges for taller door.	✓		
2" thick door panel. Thicker door panel means better insulated.	✓		
Jambs are available in sizes ranging from 4" to 8" at no extra charge, and wider jamb available for an additional charge.	✓		
Authentic heavy feel: 36x96 weights around 300-400lbs, 72x96 weights around 800-900lbs.	✓		
Integrated steel T-Astragal	✓		
One piece, welded door jamb that will support the weight of the doors. Not a knock-down door jamb.	✓		

Pre-hung from the factory.	✓		
Multiple holes on door mounting flanges so that it is easier to install.	✓		
Operable glass panel for cleaning, ventilation and extra security by keeping the door closed and locked between homeowner and the visitor.	✓		

Shipping

The doors are shrink wrap, recycled paper wrap, bubble wrap and created with ½” plywood.	✓		
For double doors, we separate door jamb and door panel into three packages so that it can be unloaded from the delivery truck by 2-4 people. Be aware if someone tells you that they pack everything in one package – it’s just too heavy to unload from the truck!	✓		
Our delivery carrier calls you one day before to setup a delivery appointment.	✓		

Customization

24 hrs turn around on all design drawing	✓		
We can prepare the doors to fit into any kind of wall and/or construction at no additional charge.	✓		
10-12 weeks lead time.	✓		
We can incorporate unique elements such as mail slot, doggy door or customer’s initial.	✓		
Again: no matter what designs, it’s all priced by the size.	✓		
Unlimited design revisions	✓		

In Stock Products

Real-time in-stock products on the website.	✓		
Wide variety designs and door size available	✓		

Finishes

Sand Blasted to remove any impurities	✓		
Acid wash to further remove any impurities	✓		
Zinc Galvanized to prevent from rusting.	✓		
First finish layer: Epoxy Primer. We do not recommend powder coating because it will crack over time.	✓		
Second layer: Black primer	✓		
Third layer: Black paint	✓		
Fourth layer: Hand applied faux finish	✓		
Fifth layer: matt polyurethane clear coat to repel dust and keep the original finish sealed.	✓		
Comprehensive touch up paint kit is available free of charge.	✓		

Weatherization

Kerf Vinyl-Clad weather-stripping installed around the door stop and T-astragal	✓		
Adjustable door threshold so that you can adjust for uneven floor included	✓		
Dark Bronze, adjustable, aluminum threshold included to adjust for uneven floors. We do not recommend steel thresholds because they are subject to rust.	✓		
Heavy duty door sweep included.	✓		
Tight-seal weather stripping around glass panel.	✓		
Door corner pads to seal on doors corners included.	✓
